

Objective

PRIVATE		<p>https://pixabay.com/photos/homeless-homelessness-poverty-3987525/ Tama Photography, Pixabay https://pixabay.com/users/tamaphotography-5599496/ / I see homeless people moving into empty spaces where they can stay warm and dry. During the era of covid, there are far more empty spaces and far more homeless.</p>
PUBLIC		<p>https://popeurbanpc.wordpress.com/2021/05/24/the-melting-pot-of-housing-obstruction/ Some people are tired of the homeless and do not want shelters in their neighborhoods. Homeless people are often kicked out of shelters in the daytime and wander around the area, often urinating and defecating where they can due to the lack of public bathrooms.</p>

"Homeless Shelter Stays Open in Preparation for Storm" by KOMUnews is licensed under CC BY 2.0

Homeless shelters are often overcrowded and unsafe. Most don't have nice looking quilts like this shelter does, but it was the only photo of a homeless shelter that I could find.

Commercial Objective - To displace people who can not afford to pay the rent/ to keep the streets clear of the homeless

According to Pine Street Inn, an organization dedicated to ending homelessness, 23% of all homeless are veterans. "The VA's specialized homeless programs served more than 92,000 veterans in 2009, which is highly commendable. This still leaves well over 100,000 more veterans,

		<p>however, who must seek assistance from local government agencies and community- and faith-based service organizations.”</p> <p>Global Objective - To isolate/home/remove the displaced/homeless/refugee when there is no place to put them and no place for them to go.</p>

Urban Fox

The foxes can often be seen running up and down the road at night, but it is rare to see them during the day.

This is a poor shot through the front room window as the fox ran across the drive of the the house opposite
